EXPERIENCE

KHEELADI | FULL STACK DEVELOPER

May 2026 – Present | Bangalore

- Building a full-stack board game e-commerce platform using Docker, Kubernetes, and Redis.
- Developing end-to-end features including product listings, cart system, and order management.

WAREWOLF | FULL STACK DEVELOPER

Dec 2025 – Feb 2026 | Gurugram

- Built complete web platform (frontend + backend) in JavaScript with Docker and Kubernetes for load balancing.
- Integrated Redis caching layer, significantly improving application response times.

APARATUS | FRONTEND DEVELOPER

Jan 2025 – Mar 2025 & Jul 2025 – Oct 2025 | Mumbai

- Designed and developed frontend for multiple product websites and a SaaS application end-to-end.
- Delivered consistent, responsive UI across all products in close collaboration with the product team.

LARGE MEDIA SOLUTION | FRONTEND DEVELOPER

Aug 2024 – Dec 2024 | Ahmedabad

- Managed and delivered frontend for 25+ client projects at a service-based agency.
- Built responsive, cross-browser UIs across concurrent client engagements on tight deadlines.

FREELANCE | FULL STACK DEVELOPER

2023 – 2024 | Remote

- Handled 12+ clients independently — delivered e-commerce sites, landing pages, and portfolios.
- Managed complete project lifecycle from requirements to deployment for each client.

PROJECTS

COLLEGE WEBSITE | FULL STACK | NODE.JS, EXPRESS.JS, HTML, CSS, JS

- Built the official website for Madhav Institute of Technology and Science with a Node.js + Express backend.
- Deployed the platform serving the entire college student and faculty base with optimized load times.
